

SAM 019456

METEOR Tipo KBS 3

A vintage green metallographic microscope is shown. It features a large, angled objective lens assembly mounted on a base unit. The base unit has a prominent silver-colored knob on the front and a black adjustment lever on the side. A flexible black hose is connected to the top of the microscope. The device is placed on a green surface, and various other items, including a wooden box and a black object, are visible in the background.
