

Inventory number: 21788

Tool presetting device
KELCH Kalimat C34

Technical data

Machine's weight about	250 kg
Overall dimensions machine:	
Length	900 mm
Width	600 mm
Height	1100 mm

Robust, stable table-top unit in vertical construction with high-precision mechanics in ergonomically optimised design.

- Mechanical rotary centre measuring device Cutting edge sensing in X
- Modular precision spindle, manual vertical, for mounting any type of cutting edge
- SK 40 insert module
